## Education

---

**Polytechnic University of the Philippines**  
Bachelor of Science in Computer Science

Manila, Philippines  
July 2027

**Adamson University - Senior High School**  
STEM-Engineering

Manila, Philippines  
July 31, 2023

## Experience

---

**Junior Blockchain Education Consortium of the Philippines (JBCEP) – PUP**  
**Manila**

*August 2025 - present*

### ***Vice President for Internal Affairs***

- Oversaw the creatives committee and coordinated cross-functional efforts between design, communications, and events teams to ensure consistent branding and timely deliverables.
- Managed internal communications, volunteer assignment, and onboarding processes to improve team efficiency and retention.
- Developed publication materials, social media content, and internal guidelines; reviewed and approved creative assets before release.
- Served as liaison between the executive board and creative teams, ensuring organizational policies and project timelines were met.

*October 2024 - August 2025*

### ***Membership Committee Officer***

- Managed the membership database and handled all tasks related to applications, renewals, and member communications.

## **Shift Out**

### ***Co-Founder / Creatives Head***

*February 2025 - present*

- Led team growth, operations, and jumpstarted initiatives as part of the core leadership team of a student-led tech organization cultivating a space for builders, thinkers, and doers.
- Oversaw overall direction and internal collaboration to ensure team effectiveness and alignment with organizational goals.
- Headed the creatives team, managing the development of all visual content including event publicity, branding, and campaign materials.

## **Moonton Student Leaders (MSL) Philippines**

### ***Creatives***

*February 2025 - present*

- Designed official banners and visual assets featured on MSL Philippines' Facebook page, supporting national-level campaigns, events, and announcements.
- Collaborated with fellow creatives and the core team to align visual content with Moonton's branding guidelines and community goals.

## **Google Developer Groups**

### ***UI/UX Cadet***

*November 2024 - November 2025*

- Collaborated with the team to contribute to design projects, complete tasks, and participate in team events while fostering a creative and supportive environment.

- Enhanced design skills through study jams, training sessions, and user-centric research, focusing on crafting innovative solutions.

#### **Software Development Cadet**

- Collaborated on development projects, completed coding tasks, and engaged in team events.
- Build skills through coding sessions, study jams, and training focused on user-centered solutions.

*November 2023 - October 2024*

#### **PUP Association of Students for Computer Intelligence Integration (PUP - ASCII) Subcommittee for Creatives Communication Committee**

- Designed and created visually captivating promotional materials that grab attention and leave a lasting impression.
- Blended creativity with strategy to craft engaging communication that effectively connects with the audience.

*October 2024 - August 2025*

#### **PUP CCIS Student Council**

##### **Junior Council Officer for Mass, Media, and Arts (MMA)**

- Facilitated the dissemination of information from the council through creative expression.
- Created impactful communication and engagement between the council and students.

*October 2023 - September 2024*

## **Projects**

---

#### **PASUYO - Your Local Gig and Errand Platform**

##### **UI/UX Designer**

*June 2026*

- Designing a peer-to-peer gig marketplace mobile app for the PUP community, connecting students who need quick tasks done with those looking to earn on the side.
- Inspired by the community-driven feel of Carousell and Facebook Marketplace, targeting micro-gigs such as food pickups, printing, and queue holding.

#### **Takbo, Jusko!**

##### **Game Designer**

*June 2026*

- Built a 2D browser runner game in Godot using GDScript, featuring original character art and polished gameplay mechanics deployed and playable directly on the web.
- Implemented A\* pathfinding (Hunter AI), a Decision Tree (Director AI), and Simulated Annealing (Chaos Engine) for dynamic difficulty and enemy behavior.

#### **Intrusion Prevention System**

##### **UI/UX Designer**

*January 2026*

- Designed a network security dashboard UI that visualizes real-time threat detection and prevention logs for easier monitoring and analysis.

#### **BaraBara**

##### **UI/UX Designer**

*January 2026*

- Designed and developed a lexical analyzer web app built to tokenize and analyze input strings based on defined language rules.

## Melory

### UI/UX Designer

December 2025

- Designed a music rating and review platform inspired by Letterboxd, allowing users to log, rate, and comment on songs and albums in one place.

## DoneZo

### Junior Council Officer for Mass, Media, and Arts (MMA)

February 2025

- Designed a task management system featuring a scheduling algorithm that prioritizes tasks by deadline and difficulty, cross-references fixed commitments to avoid conflicts, and displays suggested time blocks through a layered UI.
- Used CSV file handling for local storage instead of a traditional database.

## AcadeMeet: A Study Buddy Matching & Collaboration Platform

### UI/UX Designer

December 2024

- Designed a mobile platform for university students to find study partners or groups based on their learning styles, schedules, and preferences.
- Features include real-time chat, study session tracking, task management, and a Pomodoro timer.

## iSalbar: Empowerment through connection. Resilience through innovation.

### UI/UX Designer

November 2024

- Developed a digital platform designed to support Filipino farmers in recovering from typhoon damage through community collaboration and innovative solutions.
- Bridged traditional agricultural practices with modern technology, fostering resilience and sustainability in rural communities.

## Awards

---

### UP SoComSci HACKathon (iSalbar)

November 2024

- 2nd Runner Up

## Skills & Interests

---

Design Skills: UI/UX, Graphic Design, Layout Design

Soft Skills: Attention to Details, Creativity, Communication, Collaboration, Leadership, Critical Thinking

Tools: Figma, Adobe Photoshop
